

Things are happening at RealDealPoker!

Following our very successful trip to the EIG Gaming conference in Copenhagen, we are signing an agreement in the next three weeks with our poker platform provider that will enable us to formally announce the highly anticipated launch date for RealDealPoker.com!

At the time of this upcoming announcement we will also be revealing several player promotions that will be unique to RealdealPoker.com and you, our valued players.

We would like to open an initial promotion to our current signed up players which will see one lucky person play an extremely important role in the look and feel of the entire site and win some fabulous prizes!

We are seeking an original and highly relevant “strap line” to our site domain name for when we go live.

For example:

RealDealPoker.com (site domain)

The only place to play (example strap line)

We want our players to take a vital role in how we present and manage our site and this is the first request for your involvement. Should we decide to use a strap line chosen by one of our players then the player will receive not only a 42 inch Plasma TV screen shipped directly to their home anywhere in the world but also \$200 into their real money online poker account the day that Realdealpoker.com goes live. And don't forget that your chosen strap line will appear on our website and all our literature!

We want something original and cutting edge that sums up our offering to the market!

As you know, Gioia Systems have created two unique products in the market CutNShuffle™ and Game Check™. The system is designed to replicate the actual game of poker a player may experience in a casino, home game or land based tournament, including the unique provision of a cut facility and burn cards, something that no other online poker site currently provides.

Gioia's patented CutNShuffle™ system is a fully automated, real card dealing system that scrambles, shuffles and deals **real decks of cards**, digitizes the results and then translates them to online poker table games. Gioia has also designed and built the first system capable of producing post game audit results Game Check™.

Gioia will open and operate its own www.realdealpoker.com branded online site, using its CutNShuffle™, Game Check™ and Poker Room Management Platform very shortly and look forward to announcing our launch date in the next few weeks!

Good luck and we look forward to receiving your entries.

Spread the word to your fellow poker players to sign up to www.realdealpoker.com so they are in with a chance of winning this fantastic set of prizes and being informed of our exciting future promotions as we gear up for launch!
